

BMI IMAGING SYSTEMS

Simply Affordable.

If you have a substantial microfilm or microfiche archive, you're already spending a lot of money – on readers and reader-printers, their annual repair and maintenance, and their ultimate replacement cost. And, how about the productive time that is lost, dealing with the inefficiencies of microfilm and microfiche search and retrieval methods?

These costs add up quickly, yet converting all of that film to digital format has also come at a hefty price..... until now!

Introducing: Digital Reel™ and Digital Fiche™ – the digital microfilm and microfiche retrieval systems from BMI Imaging.

Conversion of your substantial library of film and fiche to an easy-to-use digital PC platform, is now available at breakthrough pricing. Plus, it comes from BMI Imaging – a leader in secure document and film management solutions for over 50 years.

BMI's Digital Reel™ and Digital Fiche™

- A cost breakthrough in migrating your film and fiche databases to a digital platform
- Eliminates the need for expensive equipment and its maintenance
- Reduces congestion in the office
- Reduces search time by quickly getting to the desired image.
- Purpose-built for ease of use in public environments
- Maintains the integrity of your microfilm / fiche archive and indexing

We'd like the opportunity to present this exciting solution to you, and show you how Digital Reel™ and Digital Fiche™ can move your microfilm and microfiche archives into the digital age.

Office Systems Consultants is the agent for BMI Imaging Systems in this area. Please call OSC at 850-224-6514 ext 25 or 21 and speak with Bill Kimbel or Larry Buck for more details or to schedule a free demonstration of Digital Reel™ and Digital Fiche™.
